# broncolor lighting solutions for forensics

**broncolor is dedicated to providing lighting solutions for the most demanding applications such as scientific, cultural heritage or forensic photography where colour reproduction and consistency are of utmost importance.**

The challenge of consistently meeting your needs and repeatedly surprising you with innovations is our motivation – and light our passion. Essentially, we have much in common. Every day and with every new assignment you are challenged to provide visual documentation of a scene or of relevant objects - we want to offer you our full support.

## **Constant and accurate light quality**

The highest colour consistency through broncolor's patented Enhanced Colour Temperature Control (ECTC).

## **Reproducibility**

Achieve the same results independent of timing or location thanks to durability and consistency regarding power output and colour.

## **The most complete lighting system**

From battery to studio and the widest range of light shapers including dedicated equipment for scientific photography such as UV attachments or multi spectral surface visualizers offered by one manufacturer.

This brochure provides an overview of products commonly used in forensic photography. For our full portfolio please visit [brnccolor.swiss](http://brnccolor.swiss) or see one of our global partners.

#### brnccolor Scope D50

The portable Reflectance Transformation Imaging (RTI) solution makes even the smallest surface detail interactively visible.

The object is illuminated from 48 different angles and the software creates a two-dimensional surface model to authentically reproduce the shape, colour and texture of the surface. Optionally in the visual, ultraviolet or infrared spectral range.

#### brnccolor Siros

Monolight for studio and on-location photography. Siros is the high quality, flexible light solution for professionals.

Enough power to face any challenge, control range of 9 f-stops, extremely fast flash duration, a vast amount of functions while maintaining absolute colour constancy – all in one compact and sturdy housing.

#### brnccolor Move 1200 L

Powerful, robust and long-lasting - Power Packs are the ideal solution for intensive shoots in the studio or on location.

To be ready "on location" the Move solutions are packed in an outdoor trolley backpack holding all required accessories. With 1200 joules output, two lamp connections and a flash energy control range of 9 f-stops, you are prepared for any photographic task, anywhere.

# About broncolor

Shaping the world of commercial photography for more than 60 years, Bron Elektronik manufactures professional flash and continuous light solutions for photography and videography under its legendary brand broncolor.
